

Listen to what Bill Lucas was saying on Tuesday 21 April World Creativity and Innovation Day - Tell us what creativity means to you? Why does it matter today? What can we all do about it to improve young people's lives?

@CornExchange

21 Apr It's World Creativity and Innovation Day and we'd like to share with you a small selection of things our staff members and volunteers have been creating in their homes. We'd love to see what you have been making too!

Delighted the UN has designated April 21st as World Creativity and Innovation Day, skills inherent within us all. In the post #COVID19 classroom we will need to #creatively reflect on levels of global interdependence and design the communities we want to live in.

What is CREATIVITY?

At @formwa Creative Schools Program WA, we were inspired by @_UoW @LucasLearn @DrEllenSpencer @CCEinsights

' definition. The 5 dispositions that help students become more creative: being collaborative, imaginative, persistent, disciplined & inquisitive #WCID

Creative Schools//Lamis Sabra @lamis_sabra

Students in WA participating in

@formwa's Creative Schools program are becoming aware of those 5 habits of learning. They reflect. Instead of a vague: am I being creative? They can look at specific habits: did I stick with difficulty today? Did I give and receive feedback? #WCID
